FOR IMMEDIATE RELEASE

NEW BOOK TELLS WHY US POLICY TOWARDS LIBERIA LED TO THE 2003 CRISIS

Cherry Hill, New Jersey, USA, 30 July 2003 - **Africana Homestead Legacy Publishers (AHLP)** announces the late-August 2003 release of its forthcoming title, *United States Policy Towards Liberia, 1822 to 2003: Unintended Consequences?*, by **Lester S. Hyman**. A noted Washington, D.C. attorney with 48 years experience in law, government, and politics, Mr. Hyman tells why U.S. foreign policy has inadvertently propelled Liberia into a humanitarian catastrophe and what the U.S. should do to reverse the suffering of Liberia's three million war-weary people.

Mr. Hyman knows his subject quite well. He was deeply involved in peace resolution efforts during Liberia's civil war, and worked with the International Negotiating Network (INN) at the Carter Center with specific reference to Liberia. His opportunity to take part in this work first arose in 1991. At the recommendation of the George H.W. Bush administration, Mr. Hyman assisted a British citizen in doing business with Liberia at the time the country was headed by two de facto governments: the **National Patriotic Reconstruction Government (NPRAG)** headed by **Charles G. Taylor**, and the **Interim Government of National Unity (IGNU)** led by **Amos C. Sawyer**. Until 1993 Lester Hyman continued to advise NPRAG on legal matters. After the 1997 national elections in Liberia and into 1999, Mr. Hyman served as United States legal counsel for the Republic of Liberia. In that capacity, he again communicated regularly with Charles Taylor, a man who both fascinates and repels many observers.

United States Policy Towards Liberia, 1822 to 2003 helps the reader "understand the complexity and failures of U.S.-Liberia relations," and why, since 1989, they were driven by U.S.-Taylor relations. Lester Hyman's analysis is also perfectly timed. With the brutality of the conflict between the country's **government forces** and **rebel groups, Liberians United for Reconciliation and Democ-**

racy (LURD) and the **Movement for Democracy in Liberia (MODEL)**, mediated peace negotiations since 4 June 2003, and the indictment of President **Charles G. Taylor** by the **Special Court of Sierra Leone (SCSL)**, Liberia's plight has finally gained widespread international attention that is long overdue. Marianne Means, Washington Columnist for the Hearst Newspapers, said: "If you want to know the inside scoop on Liberia, this book is an eye-opener..."

From 18 October through 22 October 2003, Mr. Hyman will visit London to promote his exceptional work. AHLP encourages all interested parties to engage this fine author for an appearance within the United Kingdom during that interval. As he is an impassioned author who champions the cause of the common people of Liberia, his appearance will be most memorable.
